Lite Tracker®

Lite Tracker Product Information

Lite Trackers® provide a bright flashing visual indicator that allows instant recognition of personnel. Lite Trackers® utilize a proprietary light multiplying principle that offers high visibility from all directions at a distance of up to one mile.

Lite Trackers® are small, light weight, and easily attach to clothing, vehicles, or equipment. Lite Trackers® are made of tough industrial grade plastic. This durable material possesses excellent strength and optical qualities. Lite Trackers® are water resistant and will provide many years of carefree service.

Lite Trackers® are proudly made and individually tested in our ISO Certified Manufacturing Center in Fredonia, PA. Individual Testing before leaving the factory results in a reliable line of safety lights.

"If We Put Our Name On It, You Can Bet Your Life On It!"

Lite Trackers® come in numerous colors, patterns, styles, and options. There are also many styles of attachments and accessories for use with the Lite Tracker® products. Attachments are selected at time of purchase, assembled at Grace Industries, and cannot be changed in the field. Our standard default attachment is a heavy duty grip clip that allows for easy attachment to clothing. Other attachments include swivel clip, magnetic back, and flex clip. Helmet bands are purchased separately and fit any standard hard hats. The grip clip and flex clip can both be used with the helmet band.

See our chart below to determine how different attachments will affect the pricing of your order.

Glow Baton®

Product Information, Part Numbers, and Pricing

Glow Baton® is a heavy duty, industrial grade marshalling wand for air, crowd, and vehicle traffic control. Glow Batons® are water resistant and visible from all directions. With the highly visible LED Glow Baton® you can safely direct people and vehicles around and out of an emergency scene.

Glow Batons® are available in a number of different colors and come in “Glow-Only” or “Glow, Flash, and Strobe” models. Each Glow Baton includes 2 C-Cell Batteries which provide up to 72 hours of continuous use in glow only mode, or up to 144 hours of continuous use in strobe or flash modes. The optional magnetic or rubber stand-up bases are sold separately.

Glow Baton® Applications:

- Traffic and crowd control
- Firefighter and police operations
- Military procedures
- Search and rescue operations
- Marine signaling
- Event parking
- Aircraft signaling

Glow Baton® Features:

- Extremely bright LEDs
- Large luminous body
- Economical
- No bulbs to replace
- Slip resistant rubber grip
- Water resistant
- Durable industrial grade plastic

Emergency Landing Zone Kit

Product Information, Part Numbers, and Pricing

The ELZ-K1 Emergency Landing Zone Kit combines our popular Glow Batons® with our new Flare Lites®. The Emergency Landing Zone Kit was designed for medvac, search and rescue, and nightflight operations when extra lighting may be necessary on scene to safely land your aircraft. It also includes 7 heavy duty rubber stand-up bases and comes packed in a rugged highly visible nylon tote for easy storage and transport. Includes laminated helicopter landing zone setup instructions.

Glow Batons® and Flare Lites® can both be used with the optional stand-up base. 7 bases are included with the ELZ-K1 Emergency Landing Zone Kit. Additional bases can be purchased separately.

The kit includes – 4 Red Flare Lites, 1 Blue Flare Lite, 2 Glow Baton Marshalling Wands, 7 Heavy Duty Rubber Stand-up Bases, a rugged and highly visible nylon tote for easy storage and transport plus laminated Helicopter Landing Zone set-up instructions. (All lights are Flameless LED).
